

FOR IMMEDIATE RELEASE

aquaBRIGHT White Pool Finish is Classified by UL to ANSI/NSF 61 Standards

Classification Provides New Commercial/Residential Applications & Opportunities within the Swimming Pool and Aquatic Industries

Warminster, PA 9th September 2014

ecoFINISH™ has been on the forefront of developing and distributing the unique aquaBRIGHT™ product, a thermo-pneumatic applied polymer swimming pool finish, for residential and commercial applications as well as Water Parks, Aquatic Centers, Zoos, and Aquariums. aquaBRIGHT benefits include a durable, easy install, chemical reducing, and eco-friendly swimming pool finish. ecoFINISH constantly strives to innovate and expand the revolutionary aquaBRIGHT application and finish. In order to expand the opportunities and applications of aquaBRIGHT Commercial White Pool Finish ecoFINISH chose to and has successfully been tested and Classified by UL as ANSI/NSF 61 Standard compliant. ecoFINISH chose UL as the certification entity due to their international reach and recognition. The UL Classification Mark is the single most accepted Certification Mark in the world, appearing on 22 billion products annually.

The NSF/ANSI Standard 61 for *Drinking Water System Components* includes testing products to ensure they do not leach contaminants into the water that could create any adverse human health effect when in they come in contact. aquaBRIGHT is now classified as a *Drinking-Water-Safe component*. This sets ecoFINISH apart from other finishes

The Benefits of UL Classification for NSF/ANSI Standard 61 provides Commercial Aquatic customers with assurance and a mark of distinction that the aquaBRIGHT finish is safe for use in drinking/swimming water. This opens opportunities in commercial applications where there are restrictions on pool/potable water finishes. These applications include but are not limited to Concrete, Fiberglass, and Steel Swimming Pools, Spas, Water Parks, Aquatic Centers, Zoos, and Aquariums.

President Joe Solana III "This has opened the door for aquaBRIGHT to be the future of Commercial Swimming Pool Finishes and establish ourselves as the go to Commercial Aquatic Finish."
